

18th International Conference on Electroanalysis ESEAC 2020

5 – 9 June, 2022

Vilnius, Lithuania

SPONSORSHIP OPPORTUNITIES

Dear Colleagues,

Joint Life Sciences Center (GMC) of Vilnius University and State Research Institute Center for Physical Sciences and Technology (FTMC) cordially invite you to participate in the 18th International Conference on Electroanalysis (ESEAC 2022) to be held in Vilnius the capital city of Lithuania on June 5-9, 2022.

ESEAC 2020 is a continuation of the successful series of biannual international meetings introduced by Professor Malcolm R. Smyth in 1986 in Dublin City University. The conference has a broad scope covering all fields of modern electroanalysis – from theoretical aspects to practical applications. This Conference brings together the most outstanding research in electroanalytical chemistry from across Europe and the world. Contributions of young researchers are strongly encouraged. We count on a successful meeting, which provides an exciting forum for the presentation of recent research, informal discussions, exchange of ideas and new co-operations in the field of electroanalysis.

ESEAC 2020 will take place in the capital of a beautiful Baltic country – Lithuania. The venue is a new modern building of GMC at the Sunrise Scientific Valley. Vilnius is in the geographical center of Europe and it is easy accessible from whole Europe and the world. Vilnius is internationally recognized as one of the most knowledge-intensive and innovative cities – a city as ambitious as you are. Vilnius and Lithuania in general is proud of record scientific achievements in biotechnology, innovative medicine, laser and light technologies. The most up-to-date ICT technologies are fully implemented and functioning in the entire country. The capital of Lithuania is like an open book, leaving vivid illustrations of the history of European styles – from the Gothic to the Classicism. The Old Town of Vilnius is among the largest in Eastern and Central Europe, included in the UNESCO world heritage list. Therefore, following the traditions of ESEAC, the participants will have an excellent opportunity to combine exciting science with a unique social and cultural experience.

We are sincerely honored to host this prestigious conference in Lithuania for the first time and we hope that our guests will find the forthcoming meeting to be an experience to remember.

Best regards,

Rasa Pauliukaite

Chair of ESEAC2022

SPONSORSHIP OPPORTUNITIES

EXHIBITION – Price: 1.500 Eur

- Exhibition space of 6 sq.m.
- Equipment: table, 2 chair, lightening, electricity.
- 2 complimentary Exhibitors registrations
- Identification signs.
- Printed acknowledgement in the Conference Program, identifying a company as an Exhibitor of the conference.
- Logo placed on the official website of the conference, identifying a company as an Exhibitor.
- Validation to attend all scientific sessions, coffee, lunches.

OTHER – Price: by separate agreement

Other sponsorship opportunities are available: printed material, coffee breaks, lounges, ect. For availability and pricing please contact conference secretariat.
